No. 188

## CHARGE GROSS CARELESSNESS AT THE ISOLATION HOSPITAL

**LITTLE GIRL DIED WHILE THERE AND HER FATHER CLAIMS THAT SHE HAD CONTRACTED DIPHTHERIA WHEN RECOVERING FROM SCARLET FEVER—THIS, HE CLAIMS, CAUSED DEATH, AND HE DEMANDS DAMAGES FROM THE CITY—DR. WHITELAW'S STATEMENT.**

Minnie Hoffman, the ten-year-old daughter of Mr. Frank Hoffman, contractor, residing on the corner of Sinclair street, and Spadina avenue, died in the isolation hospital on or about July 26th, under circumstances which Mr. Hoffman claims were the result of gross carelessness on the part of the hospital officials. Minnie Hoffman, together with her brother aged nine, were admitted to the isolation hospital about the middle of May, suffering from scarlet fever. While in the hospital, according to the claimant, the girl also contracted measles, and subsequently had to undergo an operation for the removal of an abscess.

**Infected Before Admission?**  
Dr. Whitelaw, medical health officer, has issued a statement, published below, setting forth the position of the hospital authorities, and pointing out the predicament they were in. According to his opinion, Minnie Hoffman, probably was infected with diphtheria, before her admission to the hospital, while the statement of the boy never contracted the later disease at all.

**Take Case to Courts**  
At any rate, there will be a lawsuit over the matter, and Mr. Hoffman has already engaged counsel, Mr. O. C. Mac, K.C., whose letter on the subject of the claimant is also published below. No set amount of damages has yet been asked, and will not be announced until after Mr. McCaul takes the matter over with city solicitor Down.

**Mr. Hoffman's Case**  
The position of the claimant is set forth plainly in the following letter written to the mayor and council, by Mr. McCaul.

Edmonton, August 2nd.  
Mayor and Council:  
City of Edmonton:  
Dear Sir:

I am instructed by Mr. Frank Hoffman to write to you in regard to the case of his daughter, Minnie, aged eight, who died in the Isolation Hospital on or about the 10th day of July, 1910.

Mr. Hoffman's two children, the girl in question and a boy aged nine, were taken down with scarlet fever about the 16th or 17th days of May, 1910, and, on the advice of Dr. Sloan, they were sent to the Isolation Hospital, an institution, I presume, maintained in the interests of public health, and of the city generally.

The Isolation of Mr. Hoffman's children was so imperfectly carried out that while in the scarlet fever ward they both contracted diphtheria. The boy eventually recovered and was discharged from the hospital about the 21st day of June, 1910; but the girl in the critical stage of diphtheria, contracted, in the supposed isolation scarlet fever ward, still another contagious disease, viz: measles. Subsequent to this succession of diseases, an operation to remove an abscess necessitated the chiselling away of the nasal process, and after this, general scepticism as to the result, with the result that the child died.

I do not think that there facts have been published before; but it would appear that Mr. Hoffman has a claim against the city for damages in respecting the loss of his child.

I would be pleased if you would instruct your solicitor in order that

(Continued on page eight)

## MOUNTED POLICE BAR THE PICTURES

Receive Orders to Prevent Showing of Jeffries-Johnson Films

That the Johnson-Jeffries fight pictures will be barred in Edmonton is now a certainty. Yesterday Superintendent Cuthbert of the R. N. W. M. P. received instructions from the Commissioner of Police at Regina to the effect that he was to notify the moving picture theatres that they would be prosecuted if they showed the films, and this was accordingly done yesterday.

This action of the mounted police which is taking place all over the west is being taken as somewhat of a test of the criminal code, in this respect, which provides against exhibitions of indecent character, and as the pictures in question are reported to be much inferior to those of the Wigan-Nelson fight which were shown in Edmonton, it is a question as to whether anything in "Queen" could be found to justify the step which the police are taking.

The commissioner, however, states that he has power to stop any exhibitions of the fight under the code's provisions and will act on this authority.

**Expect Pictures at Starland**  
The management of the Orpheum Theatre this morning announced that he would not run the fight pictures and that he had no intention of running them even if the police had not threatened prosecution.

At Starland they do not know whether they will run the pictures or not. The manager this morning said that they expected the films in ten days or so, and that in the interim they would write to their head office in Winnipeg for instructions.

Buying your drugs and medicine of us means much to the family exchequer. Edmonton Drug Co.

## BRITISH WEEKLY IS PLEASED AT WEST

Says Western Farmers Demand For Free Trade Cannot Be Ignored

(Canadian Associated Press)  
London, August 11.—The British Weekly says:  
"For once we almost envy any Liberal member going down to the country. The Canadian revolt against protection is a fact so great that it cannot be silenced or suppressed by any conspiracy of Unionist papers. It is a monstrous fact that Canadian farmers desire no preference in the British market. Canadian manufacturers will fight hard, but the future of Canada is in the west."

## BURNING MATCH FELL IN UMBRELLA

And Set Mr. McNish's House on Fire—Very Little Damage Was Done

The Strathcona Fire Brigade were called out last evening to the residence of Mr. McNish on North avenue north and Fifth avenue east. The firemen arriving in time to prevent it spreading. It is believed that it began by Mr. McNish lighting his pipe and then throwing the match away so that it landed inside his umbrella, and remaining there unnoticed, gradually spread until it set a wooden partition on fire.

### RATE UNCHANGED

London, Aug. 11.—The rate of discount of the Bank of England remained unchanged at 3 per cent. today.

### THINKS IT WAS ACCIDENT

Inspector Worsley Believes Walter Watts Did Not Suicide

"Nothing further in regard to the case of Walter Watts, who was found dead outside his shack on the Stony Plain Road, has been heard by the police. Inspector Worsley this morning said that he believed it was an accident. Whether it was or not will be shown at the inquest which will be held tomorrow afternoon at two o'clock."

## FAULT WITH THE BUILDER

Did Not Report Defects at Power House and Spent City's Money in Repairs

### INSPECTOR THERE NOW

And If Things Don't Go Right, Commissioners "Want to Know Why."

Commissioner Bullitt this morning explained to a Capital reporter the exact cause of the trouble at the power house, about which institution something crops up every other day. When the work first started by one set of men, and that, instead of being managed the way it was, should have been undertaken by a construction company. Moreover, the city officials never got a glance of the plans of the building which is a remarkable oversight.

Again, the same trouble that was reported to the commissioners yesterday, in regard to the weakness of the west side of the building, had occurred twice before, on two other sides, and on those occasions no report of the matter was made by the people in charge of the construction, who got their heads together, and without any authority devised means of rectifying the defects, using the money voted for construction work, not to make repairs. Besides the charges made for these repairs were excessive.

Mr. Bullitt, however, looks for an early straightening out of the difficulty, and a rapid completion of the plant. The building inspector is now superintending the work, and if things do not go smoothly from now, the commissioners, as Mr. Bullitt says, "will want to know the reason why."

## QUEEN'S OWN OFF FOR OLD ENGLAND

Regiment Said Good Bye to Toronto Last Night, Prior to Departure

Toronto, Aug. 11.—Several thousand relatives and spectators crowded the galleries of the armory yesterday when six hundred stalwart officers and men of the Queen's Own Rifles, resident in new uniforms, paraded for a unique ceremony. The Lieutenant Governor, the Premier of Ontario and the mayor of Toronto united in bidding the regiment "God speed" and in voicing the farewell of the people of the province, and dwelling upon the precedent in imperialism that the regiment is setting in its visit to England.

### DEAN FISTS

Resents Successful Student Burning Diploma with Cigar

Syracuse, N. Y., August 11.—Dean Sheppard and Professor Paul Nugent of the Lyman C. Smith College of Applied Science, faced badly yesterday in a fist fight with Herbert W. Faus, a graduate of the civil engineering department and a prominent athlete. Vexed over the delay in obtaining his diploma, Faus walked into the dean's room and lighted the diploma from a cigarette. White smoke came burning the dean struck Faus on the nose, drawing blood. Faus retaliated and had the better of the argument. After this encounter Faus went to the home of Prof. Nugent and administered a beating.

### DOCTORS OFF TO BANFF

Will Attend Convention of Provincial Medical Association There

Many local physicians are in Banff for the purpose of attending the sessions of the Provincial Medical Association, which will hold its annual convention at that place. Among those who have gone are Drs. Whitelaw, Park, Forin, Smith, Cobbett and Allen.

## MAYOR GAYNOR IS STILL IMPROVING

Conditions Were Normal Last Night and It Is Hoped He Will Soon Be Up

### THREATEN EDWARDS' LIFE

Peculiar Story of Revenge and Threats Is Handed to New York Police

New York, Aug. 11.—All reports this morning from the bedside of Mayor William J. Gaynor were of an encouraging nature and the indications are that the distinguished patient in St. Mary's Hospital, Hoboken, suffering from an assassin's bullet, was well fortified for what may prove to be a crucial day.

### Bulletin's Issue

At 2 o'clock this morning the following official bulletin was issued: "Mayor Gaynor spent a comfortable night. Temperature 100 1-2; pulse 76; respiration 17. (Signed) William J. Arlitz, M.D.; George W. Stewart, M.D."

"Dr. Stewart remained at Mayor Gaynor's side all night, made the following announcement: "The mayor woke at his usual hour this morning after a comfortable night's sleep. His temperature, pulse and respiration are normal. There are no unfavorable symptoms."

### Peculiar Story

New York, Aug. 10.—The detectives of the central office are investigating the story of a man named Parlmutter, who claims to have in his possession affidavits that two girls, one his sister, had overheard an intoxicated policeman say on Monday night that "Gaynor would be killed either Tuesday or Wednesday, and that he was to be killed by a European or on his return."

Parlmutter attempted to sell the affidavits but before the sale was effected he was turned over to a detective who hurried him away. It is reported that Parlmutter gave the detective the policeman's number.

### Edward's Life Threatened

New York, Aug. 10.—Interest of course centres on the mayor's condition, but Gallagher, now professing a trace of penitence for his deed, commanded further notoriety from his cell in Jersey City this evening.

An anonymous letter vulgarly couched and threatening the life of the street cleaning commissioner Wm. E. Edwards, whose blows fell Gallagher to the deck of the Kaiser Wilhelm der Grosse yesterday, started a police investigation, but positively no communication was attributed to a crank.

### Although It Predicted for Big Bill

a fate similar to the mayor's the former football player was unconcerned.

## YOUTH OF SIXTEEN GETS THREE YEARS

But Judge Hopes That He Will Reform and Live an Honest Life

In Judge Taylor's private office this morning Joseph Strassburg pleaded guilty to the charge of stealing a bicycle from J. O. Boone and a tent from W. Page, and was sentenced to three years in the industrial school at Portage la Prairie.

The boy is only sixteen years old and went bitterly while his honor pointed out to him the enormity of his offence, and told him how he would be cared for during the next three years and taught a trade so that he would be able to earn his living honestly when he was released. His honor said that he was sorry to see anyone so young starting out on what pointed towards a life of crime "and I want you to turn out a manly honest boy, able to make your own way in life," he concluded.

Best Silver Polish, Jackson Bros.

## OBJECTS TO "BOILER" LAW

Edward Gunn, High Level Bridge Contractor, Says It Means Delay of Work

### CAN'T IMPORT BOILERS

Have to Make Them Here—Will Start Work on Coffers Dams at Once

The provincial regulations which prohibit the importation of boilers, even from sister provinces, and which require that all boilers used in Alberta must be manufactured according to special specifications, are a source of considerable worry and inconvenience to the contractors who have the contracts for the high level bridge and structure. Mr. Edward Gunn, who represents the firm, stated this morning that the machinery necessary for the commencement of operations will arrive very shortly, with the exception of the boilers. He states that the firm will have to go to work and have their boilers made here and that it will take some time.

When the work does start in earnest, Mr. Gunn states that it will be pushed right along, operations being carried on night and day. The work will be started simultaneously, on all the piers, both land and river, and coffer dams for the river will be constructed right away.

## NEWSBOY SHOT BY RESTAURANTEUR

Was Fooling With Shooting Gallery Rifle—Thought It Was Not Loaded

Regina, Sask., August 11.—Tony Hartz, a Russian newsboy, was shot and probably fatally wounded at an early hour this morning by a restaurant named Walkoff. Walkoff was playing with a small rifle used in a shooting gallery and snapped the trigger. Thinking it was a loaded he pointed the gun towards a young flagel, pulling the trigger, discharge the contents into the left breast just over the heart. The wound bled profusely, and the doctors hold out little hope for Hartz's recovery.

## WILL MEAN MORE MIXED FARMING

Big Western Manitoba Farmer Sees Good in Partial Crop Failure

### WILL BE MORE DAIRYING

Has Shown Farms One-Plant. Crop Idea Is Not a Good One

Brandon, Man., Aug. 11.—E. W. Hanna, one of the big farmers of Western Manitoba, said today after an inspection of his farms in the Griswold district:

"It is now evident that the crop predictions were too pessimistic. We will have the lightest crop we ever had in this part of the country, but no losing yield. It will go ten or twelve bushels to the acre and will be inexpensive to handle. Other grains will show up well; late barley is as fine as the country ever produced."

"Farmers will profit too, by the light yields for they will serve to turn the attention to stock raising and other side lines. Scores of farmers, including myself, are going into dairy work. There will soon be a noticeable increase in the production of beef and butter, and the demand for which now exceeds the supply. This unfavorable season has done more than anything else in the past to convince farmers that the one plant crop must be discarded and more attention given to side lines that are open for development on farms."

## "I CAN BRING HUNDREDS TO THIS COUNTRY, AND I'LL DO IT," SAYS KANSAN

The advance guard of 92 settlers of the number who are coming from Alpena, Michigan, under the direction of D. H. Morin, publicity agent for the state of Michigan, have arrived and information has been received from Mr. Morin by Publicity Commissioner Hotchkiss that another excursion started from Alpena on August 10th, while another is to start on August 26th. The majority of the 92 settlers that have arrived are to settle in the Edmonton district. Mr. Morin is carrying on an extensive campaign for the state of Michigan, and is advertising in the papers of that state, setting forth the advantages of Alberta. Mr. Hotchkiss considers Mr. Morin the best publicity man in the service, and sends reports of his work have come through other sources.

**Expecting Stampede of Settlers.**  
The Publicity Department have now agents working throughout the States, and many settlers have been persuaded to come to this province through their work. Mr. Hotchkiss states that there is no doubt now that there will be a sufficient inflow of settlers to make up the desired 40,000 population in the province by the time the census is taken.

Next April. He stated to The Capital this morning that he looks forward to a perfect stampede of Americans to this province next spring, and he even thinks that it will be to such an extent that it will be difficult for the authorities to handle the number that will cross the border to settle on Alberta's rich prairies.

**A Visitor to Mr. Hotchkiss' office** this week was Mr. D. Logan, of Kansas. Mr. Logan is overflowing with enthusiasm regarding this country. He was formerly a colonizer in Kansas, and had extensive connections with land interests.

**Speaking to Mr. Hotchkiss, he said:** "I know all. You can't fool me on soil. I can bring hundreds of settlers into this country, and I am going to do it." And judge from Mr. Logan's capable experience as a colonizer, it appears as though he is fully capable of carrying out his promise.

**Speaking of the condition in Kansas,** Mr. Logan told Mr. Hotchkiss that conditions this year in that state were just as bad, and worse, than in any other territory. He says that everybody's farm is for sale, while there are no buyers.

## REGINA HAS NOW FINALLY SURRENDERED FRANCHISE

Lethbridge, Alta., Aug. 11.—Regina has given up its franchise in the baseball league, having notified President Eckstrom that it is assigning the franchise to the league.

**Effect Doubtful**  
What effect Regina's withdrawal will have on the Western Canada League is problematical. It was thought that the Bonpipers had been financially bolstered up to last until the end of the season, but it is expected the Angels will last the season.

President Eckstrom will call a league meeting in the course of a day or so, to consider Regina's withdrawal along in a satisfactory manner.

## SOUTH AFRICA URGED TO HELP IN EMPIRE DEFENSE

(Canadian Associated Press.)  
Durban, Aug. 11.—Dr. Jameson, leader of the opposition, speaking here last night said that it was not sought by means of the famous raid of December, 1895, to replace the Dutchmen by Englishmen in the Transvaal. During the raid he carried a letter containing a list of the proposed new executive including Louis Meyer. Though the raid was badly carried out, and thoroughly deserving of the punishment it got, yet it was a step in the direction of the federation of South Africa, which was Cecil Rhodes' policy.

Pretoria, Aug. 11.—Speaking here General Botha said his government still awarded the Unionist programme. He heard of the people being stirred up to vote "British," but had not the Empire every reason to regard himself and his party as her sons, as good as any other.

Hon. Scots advised military training on the Swiss basis, with a nucleus for a striking force. He was willing to abide by the advice of the war office that South Africa should be self-sufficient, but rather than this she should do everything possible to assist the Empire, which had given the Transvaal her freedom. Education, he claimed, would be the dominating issue in the campaign.

## TRIED TO WRECK AN AUTOMOBILE

Telephone Pole Placed Across Road Last Night Near London, Ont.

London, Aug. 11.—A dastardly attempt was made upon an automobile party consisting of the mayor and his family near here last night. When nearing the city the auto crashed into a telegraph pole placed right across the road. The mayor, his wife, daughter and the chauffeur were badly shaken up and the machine was almost demolished.

## SPECIAL TO THE EX.

The Grand Trunk Pacific will run a special excursion to the Edmonton Exhibition on August 26th from Winnipeg, arriving in the city at 11 a.m.

There are some swell new things in men's soft and straw hats at Kelly & Moore's.

## 1500 HINDUS SAIL FOR THE STATES

Likely to Be Refused Admission — Says Consul General at Calcutta

Calcutta, Aug. 11.—Fifteen hundred Hindus have sailed, the majority for the United States. The consul general of the United States says they probably will be refused permission to land at San Francisco. The practice of such emigration to enter the States via Canada. The consul general expressed his opinion that the United States Government would make representations on the subject to the British Government.

### CALGARY MILL BURNS

Calgary, Aug. 11.—Fire broke out in the mill of the Calgary Milling Co. yesterday. The loss is estimated at about \$30,000, most of the damage being done by straw, while the third floor was badly burned.

## GRAND LODGE I.O.O.F. ELECTS OFFICERS

J. W. Shera of Fort Saskatchewan is President for the Next Year

Calgary, Alta., Aug. 10.—At today's session of the Grand Lodge, I.O.O.F., Edmonton was selected as the place of meeting for 1911. The other applicants were Lethbridge, Clareholm, Calgary and Banff. The election of grand lodge officers resulted as follows:

J. W. Shera, Fort Saskatchewan, grand master (re-elected); D. H. Dingman, Calgary, D.G.M. (acclamation); A. Brown, Edmonton, grand warden; H. J. Adams, Calgary, grand secretary (re-elected); O. E. Teasdale, Calgary, grand secretary (re-elected); A. E. May, Edmonton, and V. C. French, Wetaskiwin, grand representatives to sovereign grand lodge in Atlanta, Georgia, in September; J. V. Mitchell, representative to the annual meeting I.O.O.F., Kingston, July, 1911.

The appointed officers are as follows: Dr. Rusk, Lethbridge, grand conductor; M. P. Matheson, Grammar, Marshall; T. A. Aikman, grand guardian; N. N. Weldon, Irma, herald; Rev. G. R. Lang, Vegreville, chaplain. The officers were installed by P. G. M. Whitten, of Nova Scotia, assisted by other P. G. M.'s.

Retiring Grand Master French was presented with a P.G.M.'s jewel, by the Grand Master elect.

A program of sports was held at Victoria Park this afternoon and a social dance was held in the Arts Pavilion at the Fair Grounds. Tonight a provincial assembly of Rebeccah lodges was organized.

## HUMAN BONES AS SIDEWALK BED

Woodstock Workmen Show Shameful Disregard for Remains  
Woodstock, Aug. 11.—While taking gravel from a pit on chapel street, workmen employed by the city discovered human remains and not troubling to rebury them used them with gravel as a bed for a sidewalk. One broken up coffin and the bones which it contained were thrown on one side and left exposed. The coffin was an oaken one and the bones apparently those of a woman. Old residents remember this plot being used as a graveyard by Baptists, and some four or five years ago three coffins were dug up and reburied in the cemetery. Great indignation is expressed at such treatment of the remains and threats are made of legal proceedings against the authorities.

## PREMIER DROVE THE FIRST SPIKE

Has Given the Alberta Central Railway a Start in Life—at Red Deer

Red Deer, Alta., Aug. 11.—Sir Wilfrid's trip continues to assume the aspect of a triumphal procession. Today the Premier paid a tribute to the Canadian climate which was making our men strong and our women beautiful. It was not made by God for the effete or the timorous or laggard, but for the strong and willing, who will find their labor rewarded as in no other part of the world. Dr. Stevenson presided at the public meeting, Premier Sifton and Hon. Mr. Oliver voicing the welcome to the distinguished visitors.

Hon. Mr. Graham, discussing transportation with the Grain Growers, expressed the hope that the Hudson's Bay Railroad with its trans-Atlantic adjunct would give an impetus to the agricultural parts of the West, and he declared he had been studying northern Alberta, and it was particularly blessed that it lends itself to development as one of the best dairy sections of the known world.

Stumps were made and addresses given by the Premier at Ponoka and Lacombe, where a visit was made to the experimental farm. Here the Premier broached a new topic, declaring he had found no agitation for female suffrage, and he appealed to the ladies to keep the standard of Canadian life high and to inspire their husbands and brothers to active and intelligent interests in civic and national affairs.

The Premier with the assistance of Hon. Mr. Graham, drove the first spike of the Alberta Central Railway.

### HAD HER EYE GRAFTED

Cornea From Young Man's Pupil Was Transferred to Eye of Girl  
Philadelphia, Aug. 11.—A rare operation involving the transplanting of a portion of the cornea from the eyeball of a man to that of a woman who had been blind since infancy, resulting in the restoration of her sight, has just been performed here at the Medico-Chirurgical Hospital. It will be several weeks before it can be determined definitely whether the restoration will be permanent, but at present, physicians say, all indications point to success.

Wanted—An Idea  
The patients were a young man, the sight of one of whose eyes was destroyed by a piece of steel, and a young woman, who had been blind since infancy, suffering from a disease called ophthalmia neonatorum. One of her eyes had already been removed from its socket.

The cornea of the young woman's eye—the transparent film which covers the iris or pupil—had become clouded through disease. The only way to restore her sight was to cut a hole in the cornea and then remove the curtain, thus obstructing her vision. So it was necessary to find some transparent tissue that would replace the piece of diseased cornea removed.

Happy Thought  
When the young man was brought in with the sight of one eye permanently lost, although sections of the cornea were uninjured, the head physician, Dr. Fox, at once conceived the idea of the transfer.

When the bandages were removed it was found that the young woman could see for the first time in her life. Her sight was, of course, not as good as that of the average person, but for a radius of five feet she could see distinctly.

### THEY WAITED LONG.

A remarkable story of filial devotion and lover's constancy is reported from Brazil in Romania, and it has just culminated in the marriage of Maria Liega, aged 80, and Joseph Stolesco, aged 85. Sixty years ago Maria and Joseph were anxious to wed, but the girl's father refused his consent, and the dutiful daughter agreed to remain a spinster until death removed his opposition. The father, in a country where thanks to the use of sour milk, centenarians are common, kept her waiting until he reached the age of 112. The Bishop of Braila, who performed the long delayed ceremony, help up the newly married couple as an example to all young lovers.

How She Went Out  
"How did you manage to catch the man you wanted?" we asked the bride.  
"By pretending to try to catch a man I didn't want," she confessed.  
Would Stay There  
"Before you leave here you ought to take your wife to hear the famous echo."  
"Impossible. I would never get her away. She couldn't let the echo have the last word."—Hob Vivian.

## ANGLICAN SYNOD AT PRINCE ALBERT

Opening Business of First Day of Annual Conference Gone Through Yesterday

Prince Albert, Sask., August 10.—Under sunny skies, the Rupertland Anglican synod met in St. Alban's ladies college, fifty delegates being present.

The proceedings opened with a service in the church, Bishop Lofthouse, of Keewatin, preaching. The regular sessions commenced this afternoon. Archbishop Matheson replied to the civic welcome tendered by Acting Mayor Baker and President McGuire of the Board of Trade.

The opening business was mostly returns and included reports of the Church Missionary Society of England. His Grace, in a lengthy and interesting address covered western problems thoroughly. Regretting that the church was unable to cover the western field entirely, his grace nevertheless encouraged by the progress made each year showing distinct advance in the number of clergy and self-supporting districts in every diocese.

Growth of Church in West.  
His grace referred gratefully to the way in which the Canadian Church had risen to its obligations, and to the substantial aid received from the missionary societies in the Old Country, and expressed gratitude for the generous support of the mother church in the crisis of church opportunity in the opening up of the west. The donation from the Pan-Anglican fund and from the Church of Ireland was also gratefully referred to.

After commendation of the work of the Rev. Principal Lloyd at Saskatoon, Bishop Holmes, Anderson and Stringer, the escape of the latter from his recent perilous trip when his party was nearly starved was referred to feelingly.

### Proposes Deputation

Re Indian Schools, the Archbishop thought they should be carried on entirely at the expense of the government, and that only the support of the missionary or chaplain should be a charge on the church. His Grace was of the opinion that Ottawa would accede to this if they joined with the other Christian bodies in a deputation.

Regarding the metropolitan see, his grace could see no possible settlement unless the diocese relinquished the right either of electing its own bishop or relinquished their special claim to their bishop being also metropolitan. Archbishop Matheson also referred feelingly to the late King, and to the present monarch, concluding after referring to the late Hon. Agnew by prayer that the deliberations of the synod might be carried on in a fair and brotherly spirit and kindly consideration.

### DRY FARMING IN ALBERTA

The following is a despatch from Spokane "North of a line that would pass from Calgary, Alta., to Saskatoon, Sask., I found that where the farmers practised dry farming methods the crops are as exacting as the soil. The condition, while to the south of the line indicated many of the groves appear to be wedded to slipshod methods and their crops show it."

C. H. Moore of Spokane, said this on returning to this city from a tour of 4,000 miles in northern and western Canada, where he made a study of conditions in the Stettler district and the western part of Saskatchewan. He added:

"Many farmers have 'stubbled' their grain and have recklessly put grain in poorly broken ground. Wherever such methods have been used the crop prospects are poor. On the other hand, where better methods were used the crops look fine. This is especially noticeable in the districts north of the Calgary-Saskatoon line."

"There the farmers are raising wheat, oats, barley and timothy; long grasses and leguminous crops of wild hay. Harvesting will begin soon; in fact, some of the farmers are already at work. This shows what can be done by the practice of dry farming principles. There should be more of it in the drier districts in the western part of the Dominion of Canada."

"The farmers are practising dry farming. It is true, but not as thoroughly as they should. Many turn over the sod and instead of packing it and working it once, they permit it to remain for days and thus practically lose all the moisture. They then cut it up with discs, only to find that it has become so hard that the growing of crops is an almost hopeless proposition. Another practice that has been followed is to mow this year is the 'straw-in' of grain. The time is coming when this will be stopped."

"The district I visited is one of the best I have ever seen for the practice of dry farming. The country has considerable rain but the conservation of moisture is necessary. That is the secret of dry-farming—making the most of the rainfall."

"I visited the Canadian Experiment Station at Lacombe and was shown through the experimental fields. It is one of the most interesting places I have ever seen. Grains, grasses and fruits are grown by various methods and particular attention is paid to moisture conservation. I was interested in a field where peas and oats were grown together for hay. The vines and stems were heavy and thrifty. This combination would be a good one to try in various parts of the Pacific North-west, especially in eastern Washington."

"I talked with hundreds of farmers and others and found they are keenly interested in the high success of the Dry Farming Congress and International Exposition of dry farmed products in Spokane, October 3 to 8. I took for large delegations from various parts of the recently opened north-west."

"Many of the newcomers into the north-western parts of Canada need intelligent help in their methods and I believe that the Dry Farming Congress can give this aid. If they could take advantage of the liberal education, and such it is, offered by the management of the Dry Farming Congress without expense on their part, there is every reason to believe no shortage of crops would result in any of the districts."

"I was more than surprised at the progress that is being made in a comparatively new country and at the rapid settlement of the districts north and south of the Calgary-Saskatoon line, already referred to, and it must be that the southern part is also receiving its quota of settlers. The north-western provinces of the Dominion of Canada have great futures and the farmers there are bound to be factors in the development of the country."

In Other Words  
"The situation was funny enough to make a horse laugh," said the Chicago girl.

"Indeed," exclaimed the Boston maid, "I never witnessed an equine exclamation."

Some men feel more at home if their wives are away.

## LAW PARTS MOTHER AND HER CHICKS

Hen Wandered Away and Raised  
Brood—Hen Goes Home,  
Brood Stays

"A Daniel has come to judgment; yea, a Daniel," was the decision of the spectators at the police court yesterday afternoon, when the magistrate pulled off a decision that would put Solomon and his baby case, on the shelf for keeps. Acting Magistrate Byers was up against the problem of deciding a hen case. Figure it out for yourself. If a Chinaman found a hen in his back yard, without a tag on it and had no means of finding out who is the owner and he takes it under his celestial care, and while under his watchfulness the hen raises a brood of chickens, can the original owner if he turns up claim both the hen and the chickens? Give up?

Well, the magistrate didn't, and he has probably had the honor of establishing a valuable precedent in Canadian jurisprudence.

As a result mother hen stalks around the premises of her former lord and master with the "chuck, chuck, chuck" as she was wont to do, perfectly unconscious of the sensation she has caused. At the same time a few chickens run helter skelter about the yard where they first saw light through a broken shell, with their—(what kind of a noise does a two-week-old chicken make, anyway?)

Wah Lee, who holds down the job of kitchen mechanic at the St. James Hotel, and James Chapman were the principals in the case.

James Chapman was the owner of the hen. One day he missed the hen, and a few days later while on the premises of the hotel, did he spy the poultry marching about the yard with the air of MacDuff, with her brood following on. Wah Lee in the doorway, humming the tune of "A French Chime," added color to the scene.

Chapman claimed the hen. "Go to Helles," retorted Wah Lee. Chapman caught his hen and marched off, and the brood followed.

Thereupon Wah Lee called on the aid of the law, and with the dismissal of the case the celestial retained the brood and can now satisfy his ambition of being the owner some day of a chicken ranch.

Were ever mother and children so ruthlessly parted? Truly, justice is stern.

France has been slow to admit "The Merry Widow," but since its successful run in Paris 32 theatres in the provinces have arranged to produce the Lohar operetta next season.

The baby's chances of life are improving the world over.

## SMALL BOY WAS BURNED AT STAKE

Companions Saw Moving Picture  
Film and Tried to Imitate  
the Scene

Muncie, Ind., Aug. 10.—A moving picture film in a local live-cent theatre depicting the burning of a white man at the stake by a party of Indians is blamed for the probably fatal injury to William Johnson, six-year-old son of Lloyd Johnson.

While a crowd of children were "playing Indian" it was decided to burn one of their number at the stake, as described in the picture film, which some of them had seen. The choice fell on the Johnson lad, and he willingly consented.

Newspapers were placed under him and twined about his body and then were set on fire. The other boys rushed valiantly to his rescue when they saw him writhing in pain, but they were too late.

## GREATER THAN LAST YEAR

Revenue for the First Four Months  
of Fiscal Year Has Exceeded 1909's

Ottawa, Aug. 10.—For the first four months of the present fiscal year Canada's revenue shows an increase of \$5,625,148 over the corresponding period of last year. For the same period the expenditure on revenue account increased by \$1,258,651, while the capital expenditure decreased by \$631,884, leaving a net betterment of over five millions.

For the four months the total revenue has been \$35,655,439, the customs receipts totalling \$23,005,748, or \$5,087,918 better than last year. In-creased on the consolidated fund account has been \$2,244,107, and on capital account \$5,797,337. The excess of receipts over the total expenditure has been \$7,804,025. In-creased on the consolidated fund account has been \$2,244,107, and on capital account \$5,797,337. The excess of receipts over the total expenditure has been \$7,804,025. In-creased on the consolidated fund account has been \$2,244,107, and on capital account \$5,797,337. The excess of receipts over the total expenditure has been \$7,804,025.

The net public debt of the Dominion at the end of the month was \$338,615,687.

Tit for Tat  
Stranger (to prominent clergyman)—I came in here, sir, to criticize your church management and tell you how it ought to be run.

Prominent Clergyman (amazed)—What do you mean, sir? How dare you? Who are you, anyway?

"I am the humble editor of the paper you have been writing to."—Life.

## LAURA JEAN LIBBEY NOW ON THE STAGE

Advises Maiden's Forlorn, Com-  
mends Widows' Ways and  
Cautions Widowers

New York, Aug. 11.—Looking as young and charming as one of the b-e-y-u-ful heroines of her "seventy novels and eighty plays," to quote the veracious press agent, Laura Jean Libbey discouraged twice yesterday by the patrons of the American Roof Garden on "Love."

"What is love that all the world  
Talks so much about it?  
What is love, that neither you  
Nor I could do without it?"

she asked, Maiden's love and all forlorn who for full ten years—Laura Jean Libbey began writing at four—have been existing on the thrills and throbs of the gifted author's love stories, signed and clasped their hands in admiration, while the masculine portion of the audience leaned back and looked toward that part of the hall to which the youthful ushers refer during the intermission as "Promenade and cafe to the left."

Laura Jean expressed the view that American girls were too shy, and advised them to take a lesson from the "Merry Widows' book. "A widow does not give her adirer time to calculate," she continued. "She's more apt to say, 'Are you thinking something sweet about me?'"

The coy way in which this was said, with the shy glances and a privacy white bonnet with broad tale bow made the men sit up and take notice. "Modesty in a pretty young girl is the rose bloom that jewels existence. But there are occasions—a psychological moment—when you must help your own cause," was another of the pearls of wisdom which the gifted author laid before her audience, and she recalled Priscilla's advice to John Alden as a sample.

"Wedded bliss is the sweetest, tenderest in the world" when the hearts are truly mated," sighed the monologist, and there was an answering sigh from the audience.

Advice to widowers was also dispensed, but with a caution. "I believe good men who have shown true appreciation of wedded life can love again, as the tree buds and blossoms a second time. I don't believe in rapid fire remarriage, like the man over in Brooklyn who wedded when his wife was dead only a week. I asked him why he did that. He answered: 'Well, isn't she dead in a week as she would be in a year?'"

But the real thrill came when at the end of her monologue, Miss Libbey announced that she would recite—not sing—the words of a song which she had composed, entitled, "Lovers Once, but Strangers Now." The first verse passed off quietly enough. The chorus, however, was rendered with such pathos and feeling that the man at the base viol, who had evidently lately been in the orchestra of a melodrama house, straightened up and drew his bow to produce the "soft and low" until his neighbor restrained his arm, as the author recited the verse:

"Lovers once but strangers now,  
Two pledged with many a tender vow,  
Still I'd give this world to be  
All that I was once—to thee"

The world has a mania for favoring those whom fortune favors.

Don't expect too much of a friend  
Even friendship has a limit.

## SHACKLETON BOOSTS CANADA

The Proof Among the Oversea States  
of the Value to Britain of  
Preference.

Sir Ernest Shackleton has returned to London from his Canadian tour highly enthusiastic over the Dominion. To a representative of Canada, he remarked that he could hardly find words adequate to express the more than favorable character of his impressions. "It is one of the great countries of the immediate future," he declared; "I do not think the people of the Mother Country realize its immensity, its greatness and its possibilities."

"I have been pretty well all over the world," he proceeded, "and nothing has struck me more than the immense resources Canada possesses. And, remember, it is only a little bit of Canada that has been touched compared with what remains to be opened up. Canada, more than any other of our overseas states, gives us an idea of what an advantage it would be to us."

From 60 to 70 per cent. of insanity is due to heredity.

## How Careless.

Smith—Why did you pretty cock leave you.  
Jones—Got mad.  
Smith—At what?  
Jones—She caught me kissing my wife.  
Even the good cannot walk in slippery places without sand.

From 60 to 70 per cent. of insanity is due to heredity.

Table d'Hôte—He holds the Italian record.  
A la carte—What Italian record?  
Table d'Hôte—He ate a mile of spaghetti in three minutes and a half.

## MOVING WESTWARD FAST

The construction of the G. T. P. round house and machine shops at Edson, the first divisional point west, under J. A. Collins, engineer to the Construction Co., will be commenced by the May Construction Co. this week. The steel head is now two miles west of Edson, but owing to the fact that there are some bad places in the grade it will not arrive at the Big Eddy for a few weeks. The Wolf Creek and McLeod bridges are nearly finished, the trestle at the Creek being replaced gradually by the steel. At Edson the townsite is a muskeg which it is declared, can be drained and will make as good a townsite and railway yards as any other site west of Edmonton, Bench Creek being of great assistance in the matter of drainage.

Table d'Hôte—He holds the Italian record.  
A la carte—What Italian record?  
Table d'Hôte—He ate a mile of spaghetti in three minutes and a half.

## FRENCH'S REPORT SEVERE

Ottawa, Aug. 10.—It is stated by those who should be in a position to know that the report of General Sir John French on the conditions obtaining in the Canadian militia contains three cardinal features:

1. That the peace organization and the composition of the militia should be such that in the event of war breaking out the forces would be ready to take the field forthwith. The general finds that this is not the state of affairs at present.  
2. That better qualified and more efficient staffs than at present should be in command of brigade divisions.  
3. That the period of annual training is wholly inadequate to produce satisfactory results.

Long menus for weak livers and strong words for meek natures are some of the microbes of misunderstanding that threatens your leanings towards each other.

J. E. Wallbridge, barrister, has returned from a trip east.

## THE LARGEST UP-TO-DATE LINE OF

# Sheet Music and Musical Merchandise in Western Canada

**R**EALIZING the need of a complete stock of Sheet Music and small goods in Edmonton, we have spared no expense to make this department as attractive as any to be found in the large Eastern cities.

We carry a large and representative line of popular and classic Sheet Music, and issue our own Standard Catalogues, made up from the choicest of G. Schirmer and B. F. Wood's publications, which need no introduction to leading musicians.

We also carry a complete catalogue of McKinley 10c. music the most popular 10c. edition in the world.

## We make a Specialty of Teachers' Supplies

and our stock in this line is second to none.

Our assortment of small goods, consisting of Violins, Mandolins, Guitars, Banjos, Harmonicas, Strings for all Instruments, etc., is complete and picked from the world's best makers.

We solicit your patronage, and guarantee fair and liberal treatment at all times.

Mail Orders attended to with promptness and dispatch.

423-425 Jasper Ave. W.

Edmonton, Alta.

Home of The New Art Bell, the Piano with the Sweet Tone.

## Semi-Steel Fire-Pot—Not Gray Iron

A FIRE-POT of a furnace should be able to endure tremendous heat and to repel the attacks of sulphur fumes.

The material commonly used for a fire-pot is gray iron. The Sunshine fire-pot is Semi-Steel.

Now, avoiding technical terms, gray iron has what may be called "open" pores. Through these "open" pores the destructive sulphur fumes attack the iron and hasten disintegration.

On the other hand, Semi-Steel is a close-grained material, with a smooth-as-glass surface which practically seals or "closes" up the pores. Semi-Steel easily repels the attacks of gas fumes and thus greatly prolongs the life of the fire-pot.

A Semi-Steel fire-pot weighs 20 per cent. heavier than the same size and pattern in gray iron. It is therefore better able to endure tremendous heat.

Semi-Steel is made by an exclusive McClary process. You can only get a Semi-Steel fire-pot with a McClary furnace. That is one strong reason why you should have

the Sunshine installed in your home. Our agent in your locality will tell you many other reasons. Ask him.

Remember, the Sunshine is guaranteed by the largest manufacturer of furnaces in British Empire, to heat your home to your entire satisfaction.

## MODERN LIFE WOULD BE TOO HARD ON THE NERVES IF IT WERE NOT FOR WANT ADVERTISING!

The pace of life has become tense.

Worries, disappointments, up-sets at home and office, losses, discouragements seem to multiply as daily life becomes more complex.

The property owner, who MUST have a steady income from rents or lose his property, is "racked" by the untimely defection of a tenant. Some classified advertising quickly retrieves his loss—and quiets his nerves!

The salary earner unexpectedly loses his position—and his peace of mind. The strain would shortly "break" something in his nervous system if, once more, want advertising did not find the better job—and restore to him his mental equilibrium.

In every phase of the city's life, every day, the want ads play the part of the peace-maker. They SERVE you and me at some crisis in our lives—and keep the modern pace and tension from proving too fast and tight for us.

Truly, the want ads ARE FOR SERVICE!

**WANTED—ANYONE HAVING** city or farm property for sale to list name with me, if the price is right. Write or call with full particulars or phone No. 1312.

### TENDERS FOR

**SASH, DOORS AND STAIRWAYS.**

**SEALED TENDERS,** addressed to John Stokes, Deputy Minister of Public Works, Edmonton, registered and under seal of the Department of Public Works for the Government of the Province of Alberta for public buildings.

Plans, specifications and forms of tender may be had on application at the Engineer's office, Department of Public Works, Edmonton, or at the Branch Office of the Department of Public Works, Calgary.

All tenders must be accompanied by cash or payable order for 10 per cent. of the tender, to be returned to the Minister of Public Works to the amount of five (5 per cent.) of the tender.

The successful bidder will be required to enter into a contract and give bonds to the amount of twenty (20 per cent.) per cent. of his contract.

The cheque of the successful bidder will be retained until a contract and bond is executed.

The cheques of the unsuccessful bidders will be returned within six days after contract is executed.

The right is reserved to reject any or all bids or waive any defects.

Cash, close, No. 1 Northern \$1.10 1/2;  
No. 2 Northern, \$1.07 1/2; No. 3 Northern, \$1.04 1/2.  
White oats—29 1/2 c.  
Flax—\$2.20.

Stock Market  
New York, Aug. 11.—Opening dealings in the stock market were very meager and the movement of prices showed no pronounced tendency. Small declines about balanced small gains. Colorado and Southern fell 3/4 and Utah Copper rose 1/2.  
Toronto, Ont., Aug. 11.—Gen. Elec. 105 1/2; Mackay 85 1/2-85 3/4; Tor. Elec. 81 1/2-82.

**SECOND VICTIM OF HOTEL FIRE DIES**

Mrs. McCaughan Dies From Injuries Received in Belfast Hotel Fire

Fifty more entries for the fair arrived by this morning's mail.

Secretary Fisher, of the board of trade, accompanied by Mr. John Wren, provincial librarian and statistician, are making a tour of inspection of crop conditions in the vicinity of Millet and Leduc. They will return to night.

Building permits were issued this morning to the City of Edmonton for a cost of \$16,680; to Charles Sisson, the construction of the new fire hall for a dwelling on Fifteenth street, at a cost of \$3,250; and to A. Cristall, for an addition to the King George Hotel on First street, at a cost of \$1,000.

Mr. Blouet of the Blouet Henry Company was hurriedly summoned from Edmonton last week to go to Mrs. Blouet at Vancouver, who met with an accident while in an automobile driven by her son. The wheels of the car struck an open manhole and she was thrown on to the pavement. She was removed to the sanitarium and the latest reports say that she has recovered sufficiently to be removed to her home, which she has established in Vancouver. It is expected that she will be around again in a few days time, completely recovered from her injuries.

**ILL USED IN FRENCH JAIL**

Paris Papers Take Up Harsh Treatment of American Girl Prisoner

Paris, Aug. 11.—The case of Elizabeth Harworth, the American vaudeville actress who was released from prison yesterday, has been taken up by the French press. According to the newspapers it reveals the strange manner in which American prisoners are treated in Paris.

A change of clothing was denied to Miss Harworth, says the Petit Journal, during her three weeks in jail. The women wardens also refused to permit her to take a bath.

In the meantime another woman prisoner, who had been convicted of murder, had all sorts of privileges allowed her by the jailers.

**REACHED NO AGREEMENT**

Toronto, Aug. 11.—The board of conciliation dealing with the grievances of the Toronto railway employees separated today without having reached an agreement on the main question in dispute, namely, the maximum wage, and some questions of hours and routes.

Manowski and wife, St. Paul, Minn.; R. E. McCormicks, St. Paul, Minn.; Mrs. E. Grogan, Winnipeg; M. Maden, Alexandria; Kenneth McKenzie, St. John's; G. M. MacEwan, Edmonton.

Belfast, Aug. 11.—Mrs. William John McCaughan, who was injured by jumping from a window of the burning Kelvin Hotel here on July 16th, died today. Her husband, Rev. Dr. McCaughan, who was pastor of May street congregation here, was formerly in charge of St. Andrews Church, Toronto. Afterwards he took up ministerial work in Chicago. He was a victim of the same fire and died from his injuries on July 21st.

Inquest Proceeding  
The inquest on Rev. Dr. McCaughan's death was resumed last night and a feature of the proceedings was the reading of a statement from Mrs. McCaughan. It was obtained while she lay in a serious condition in the hospital, and was in writing. She declared that when she and her husband discovered the fire they tried to escape by the door, but were prevented by smoke. She went to the window and endeavored to suspend herself from the sill, but fell. Her husband rang the bell to alarm the servants before he jumped from the window.

NOTED VISITOR HERE  
Last evening the president of the Western Canada Land Company—Major-General Sir Ronald Lane—arrived at the King Edward Hotel. This is Sir Ronald's first visit to Edmonton and he was very much impressed with the city and in particular with its situation on the banks of the Saskatchewan.

In 1888 he made the trip through Calgary to the coast, where places like Brandon and Regina were not in existence, and saw some of the possibilities of the country.

When he arrived this time he was amazed at the growth of the land and at its prosperity. "You have a magnificent mixed farming country in the neighbourhood of Edmonton, and the crops I have seen are so good that I am surprised what I learn they are not as good as last year," he said.

Today he will be automobile to Watrous, accompanied by H. E. W. Evans, the Edmonton agent of the company, and will inspect the land which the company own there and on which they propose to establish a model farm. Afterwards he will go west to look at the Company's coal lands at the Pembina River.

For the Edmonton Industrial Exhibition, August 23 to 26, 1910, the Canadian Pacific Railway Company will have in effect special fares.

For full particulars as to fares, limits, etc., apply to nearest Canadian Pacific ticket agent.

**GAS PROPOSITION IN DETAILED FORM**

Trouble at the Power House Again—The Commissioner's Meeting Yesterday

The power plant is again to the fore. This time the keystones on the west side of the building are in a state of collapse, and as a result the arches are being forced apart. That at any rate was the substance of a report made to the City Commissioners yesterday afternoon by building inspector Cottrell. In the past the east side of the building suffered from the same complaint, and on that occasion silts had been put in on the instructions of Architect Lines, otherwise total collapse would have been inevitable. According to Mr. Cottrell's report, it would be worse than foolish to proceed with the construction of the building until the present defects are remedied. Mr. Cottrell made an insinuation that Architect Lines was responsible, saying: "If Mr. Lines had in the first place pulled down the last wall and put in proper key-stones all this trouble would have been averted."

Expects More Trouble  
It is evident that the building inspector does not believe that this is the last trouble that the city will have with the new power house. He even expresses the opinion that it would not surprise him if at some later date the whole building came tumbling down, following the example of the late abandoned pump house. In evidence to Mr. Hill's price for the installation of the silts on the east side, Mr. Cottrell said the charges were excessive. But as far as the defects in the building were concerned, Mr. Hill was in no way responsible. Although far from satisfactory, but in view of the advanced state of construction, the silts will be put in the west side.

Gas Offer Again.  
To supply the city with 60,000,000 cubic feet of gas per annum at the rate of \$1.80 per 1,000 with special rates for additional amounts, the offer of the International Heating and Power Company, to the city, as laid before the commissioners in the form of a draft copy of agreement, cost the city not less than \$750,000,000 of 10 per cent, while special discounts will be granted for the benefit of manufacturing consumers.

At the end of twenty-five years, the city will not be able to purchase the plant at a figure to be fixed by arbitration, but twelve months notice that the city desires to make the purchase must be given. After that the right to purchase shall occur every ten years on the same condition.

It was decided to submit the agreement to the council and it will probably be thrashed out at the meeting of that body next Tuesday night.

Route Business  
The engineer's report on the Great Ravine bridge was submitted, but it was left over pending a discussion of the merits of the proposition.

Supt. Biswanger, of the Badial Railway recommended that C. Sorenson, a workman injured in the performance of his duties be paid for the time he was absent on that account.

A report as to the length of his absence will be received before a decision is made.

A number of applications for extensions of sewers and plank walks were under discussion, and they will be carried out, subject to the approval of the council.

**MULE SPILLS MOTORCYCLERS**

Simply Let Fly as They Passed Him—Man and Girl Went Hurling

Legonsport, Ind., Aug. 11.—Clyde Jenness took his wheeler on a ride this morning on his tandem motorcycle. Seeing a mule standing in the roadway he let on the gasoline and opened wide the exhaust.

"Watch him run," he said. When the mule didn't run Jenness tried to pass the animal, fearing a collision. Just as he was opposite the mule it let fly with both feet, striking the motorcycle amidships and hurling the riders over a steep bank.

The machine was smashed and the riders were badly bruised.

**IDENTIFIED BY DEAF MUTE**

Butte, Mont., Aug. 10.—Through a tip given by a mysterious deaf and dumb man yesterday a lone hand in jail at Dillon, as a result of a sensational attempt to hold up the State Bank last Wednesday, has been identified as the notorious Bill Hancy of Los Angeles, alleged murderer and train robber, for whose capture the British Columbia government has offered \$6,000. The identification is practically complete.

**CHARGE CARELESSNESS**

(Continued from page one.)

We may see if some agreement cannot be reached by which the city should pay a reasonable sum to Mr. Hoffman under the distressing circumstances in this case.

Yours truly,  
C. C. McCaul.  
Dr. Whitelaw's Statement  
Dr. Whitelaw, medical health officer, in connection with the case sent the following statement to the mayor and commissioners:

"The children came into the scarlet fever ward with scarlet fever on May 17th, 1910. The deceased Minnie Hoffman was a particularly bad case with severe throat symptoms. Another case of scarlet fever was admitted to the same ward on May 20th, 1910, from the immigration hall with throat symptoms of a similar character. On examination of the throat by the provincial bacteriologist, it was found to be a case of double infection the throat showing the presence of the diphtheric bacilli. A swab was taken from the throat of Minnie Hoffman, which also showed the presence of diphtheria and steps were at once taken to protect the other patients in the ward by putting the Hoffman case in a private ward by herself, where she was given the services of a trained special nurse at an expense of \$250 a week to the city. Antitoxin was freely used and the child promptly recovered from the diphtheric infection as shown by a negative report later from the provincial laboratory. Whether the diphtheric infection was contracted from the case of mild infection from the immigration hall or was a first case of mild infection is difficult to say but in my opinion the case was one of double infection from the start, just as the other case proved to be. Minnie Hoffman, I may say, died on the seventh day after admission. It must be apparent even to a layman that a case of this kind cannot be removed to another division of the hospital without running the risk of carrying the primary infection, which in this case was scarlet fever, to the patients who are not suffering from this disease but from other infection. Consequently the best that can be done is to isolate as far as possible the special division reserved for a particular disease, any case of this kind that arises.

"Fortunately such cases are rare and have occurred only in five cases. My knowledge out of the 526 patients admitted to our wards during the last three years. Two of these are the cases referred to and the three others were immigrant children admitted in the desquamating stage of scarlet fever. No later on were found to have contracted measles also, before being admitted, the disease manifesting itself two days after admission. These cases were in the ward at the time the Hoffman children were there, but on account of having scarlet fever from which they had not recovered, they could not be removed to the measles ward. Consequently in spite of all the care which could have been exercised the Hoffman children presumably contracted measles from them, but made an early and complete recovery therefrom. Many other children in the ward at the time did not contract the measles.

"Subsequently Minnie Hoffman, after having apparently made a good recovery, began to have serious ear trouble which culminated in mastoid disease, for which an operation was successfully performed. A temporary improvement was followed by a relapse, during which the child died.

"In the management of this hospital no one can guarantee that such cases of mixed infection will not occur, further the city council cannot be held accountable for possible errors of judgment of diagnosis by physicians, who send in their cases and treat them themselves.

"I am of opinion that Mr. Hoffman has absolutely no claim against the city for the special care and attention his daughter received during the whole course of her illness. During the last three years the hospital has admitted 526 cases. Omitting 35 cases of consumption in which the death rate is necessarily high, being 50 per cent, there have been 18 deaths from all other diseases, showing a death rate of 3.5 per cent, which is very low, and a credit to the institution.

Mr. McCaul is in error when he states that both the Hoffman children contracted diphtheria. The boy never had it at all, and the girl as pointed out, probably had it when admitted.

Yours truly,  
"T. H. WHITELAW,  
Medical Health Officer."

Mary and the Mutton  
Mary had a mutton.

Which she did quickly store  
Away—and then she passed her plate  
And had a little more.
